

Advance Mass Spectrometry Course

November 28th-30th, 2017

The Advanced Mass Spectrometry Course will be taught by scientific experts in biological mass spectrometry (MS). It will provide theory about the technology advances and hands-on training using sensitive and state-of-the-art MS techniques to characterise biomolecules.

LAST DATE TO APPLY: *November 5th 2017*

APPLY ON-LINE AT: <http://www.ccamp.res.in/registration>

WRITE TO: training@ccamp.res.in

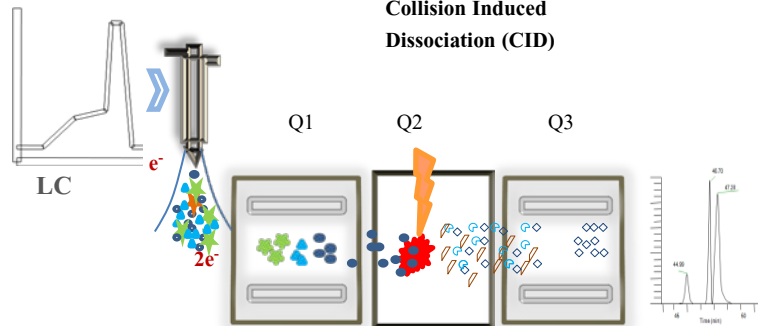

Selected participants will be informed by 10th November 2017

Eligibility

This course is primarily intended for PhD students and post-doctoral researchers, although exceptions can be made for junior faculty.

Advance Mass Spectrometry Course

November 28th-30th, 2017

Invited Speakers

Dr. Raghu Padinjat

National Centre for Biological Sciences (NCBS)
NCBS-Max Planck Lipid Centre

Dr. Sunil Laxman

Institute for Stem Cell Biology and Regenerative
Medicine (inStem)

Dr. Axel Brockmann

National Centre for Biological Sciences (NCBS)

Dr. David Peake

Metabolomics & Lipidomics, Thermo Fisher, USA

Dr. Radhika Venkatesan

National Centre for Biological Sciences (NCBS)

Dr. Uma Shankar

Waters India

Organisers: Dr. Dhananjay Shinde, NCBS, InStem, CCAMP
