

Launching C-CAMP's Accelerator Program.

Bangalore's premier technology and innovation hub, C- CAMP *presents* the *Accelerator Program* for bio tech start-ups that teaches innovators how to formulate, develop and commercialize their ideas.

Delivered by industry's best, it helps the founders to further develop their products, teams and markets. They will refine their business models, achieving product/ market fit and scale their startups into high growth ventures.

**intense!
engaging!
interactive!**

**Fast track your venture
in 4 months!**

We are looking for 8 – 10 innovative, dynamic start-ups in any sector of the life sciences – *drug discovery & development, regenerative medicine, medical devices, diagnostics, agri-biotech, industrial biotech, clean energy or biofuels.*

Applicants must have established proof-of-concept, a prototype ready for testing, or in the pre-market stage.
