

C-CAMP & CYTIVA MAKE AVAILABLE SAMPLE LIBRARY

C-CAMP and Cytiva signed a Letter of Intent (LoI) in September 2022, to support acceleration of diagnostic kit development in India. As a part of this initiative, Cytiva has set-up a repository of raw materials integral to immuno/molecular diagnostics and has made available a technical team to assist in the development pipeline.

Repository is housed at C-CAMP and can be availed by C-CAMP InDx cohort.

The Sample acquisition process is as follows:

Access the listing and Sample Request Form here:

<https://info.cytivalifesciences.com/LP-CY22530-DX-Sampling-2022-IN.html>

Offerings of the Library:

- Sample library (Membranes, Magnetic Beads, DNA Extraction Kits, etc)
- Component customization (Membranes)
- Optimizing performance (Magnetic beads, Enzymes)
- Complete development of molecular or immunodiagnostic assay
- Any other Technical support
